SportChamp SC2D

SPORTCHAMP - MAINTENANCE

Multifunctional ride-on machine for contractors for the advanced maintenance of artificial turf.

The SportChamp, the leading machine in the world market, is the solution for the maintenance of different synthetic sport surfaces within a sports facility. By the use of different attachments all synthetic sport surfaces can be cleaned and maintained according to the manufacturer's instructions and beyond that for an efficient and economic upkeep of the surface.

During weekly use the SportChamp levels the infill material of filled surfaces with the rotary brush and eliminates contamination at the same time. Thus the infill material will be loosened and the fibre will be put upright again.

Fibres lying loosely on the turf and even well-rehearsed fine dirt will be vacuumed in a large-volume filter box during the surface maintenance by the proven extraction system. The filter unit is controlled automatically and cleaned within minutes. It will be evacuated - controlled hydraulically - quite conveniently while sitting on the driver seat.

Numerous attachments facilitate and expedite the necessary maintenance tasks. The range includes attachments for the winter services and the refilling of infill material, for the removal of leaves, the loosening of extreme compaction and the spraying of care products. The application area of the SportChamp is enlarged by additional attachments for non-infilled artificial turf, synthetic sports surfaces or sidewalks. Thereby it is the multifunctional care and maintenance machine for your sports facility.

Beside the classic, weekly maintenance tasks the SMG SportChamp can additionally carry out the annual basic and deep cleaning.

SMG dust filters installed by SMG comply with DIN EN60335-2-69/dust class "M" and EN779 "F8" or "F9". Dust with a high proportion of fines as well as granulate/fibre abrasion (microplastics) are extracted via the powerful turbine and bound in the filter.

SPORTCHAMP - MAINTENANCE

Magnet bar ML1500

Item no. 6220297

Magnet bar ML1500 for artificial turf maintenance.
L 1,500 mm x W 300 x H 300 mm

Levelling brush device

Item no. 6220935

Levelling brush-/ decompacting device

Item no. 6220935 + 6223425

Or with additional brush available:
Item no. 6220935 + 6221475

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

Decompacting brush

Item no. 6400132

Opposed brush

Item no. 6400177

Sweeping brush

Item no. 6400027

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

Foliage vacuum device

Item no. 6400112

Oscillation brush OS1100

Item no. 6224217

Oscillation brush OS1100 to brush sand/rubber/organic infilling material into artificial grass.
The working width is 1,100 mm.

RenoMatic RM900

Item no. 6220366

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

Vacuum hose device

Item no. 6400125

Rigid brush - Front-mount attachment

Item no. 6400093

Rubber drag mat

Item no. 6400241

Rubber drag mat with steel frame.
L 1,500 x W 2,000 x H 70 mm

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

Snow blower device

Item no. 6400012

Snow plough

Item no. 6400039

Spray device

Item no. 6400025

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

Spreading device 800 mm

Item no. 6400133

Spreading device 1,400 mm

Item no. 6400167

Rotating brush SC3

Item no. 6239163

The all-rounder for maintaining and cleaning of track & turf.

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

Rotating brush 1,000 mm

Item no. 6400029

Rotating brush 1,500 mm

Item no. 6400017

Rotating brush device with auger 1,100 mm

Item no. 6211213

SportChamp SC2D / Detail views

SPORTCHAMP - MAINTENANCE

RotoTine RT900

Item no. 6223272

Attachment for loosening the artificial turf. Working width is 900 mm.

TurfTuner TT2000

Item no. 6240054

Tow-behind device for loosening and brushing of artificial turf.
