

passion for sports grounds

## FUNCTIONAL UPDATE: RAUMATIC R125 CAN BE USED AS A CUTTING MACHINE FOR SYNTHETIC SPORTS SURFACES.

**Our manually operated milling machine can now also be used as a cutting machine.**

Up to now, our RauMatic R125 with its 9 milling discs has only been used for milling synthetic sports surfaces. By using only one milling disc, cuts from 0 – 17 mm depths are now also possible. Our RauMatic R125 can therefore be used multifunctionally as a milling and cutting machine and is the perfect all-rounder on your construction site.

Do you need a pure cutting machine? Then you should definitely take a look at our TrackCutter TC400. This machine is specifically designed to cut synthetic sports surfaces only.
