We would like to remind you again of our event in Lindau, as only a few places are still available. Register now and be there when it comes to ensuring the quality of play on your course.

It goes without saying that as the person responsible for the sports facilities in your city, community or club, you must ensure that the legal provisions for the use of natural grass, artificial turf and synthetic surfaces are observed. You can find out what you need to know and which techniques you can use to make your work easier at our Sports Demo Day powered by SMG and Haas.
