**THE LEAVES ARE TURNING, THE FSB IN COLOGNE IS SLOWING DOWN, BUT THE YEAR IS FAR FROM OVER FOR SMG.**

**We would like to invite you to visit us at the Saltex in Birmingham.**

The Saltex Exhibition in Birmingham is Europe's largest and free lawn care trade fair and is celebrating its 77th anniversary this year. The leading trade exhibition for lawn management is designed for all professionals, suppliers and manufacturers of green spaces of all kinds.

SMG once again revolutionized the way sports surfaces are installed, cleaned and recycled. We are bringing top innovations to the UK. For example our all new TurfBoy TB1 ECO, which is a cost-effective alternative to larger cleaning machines. But the TB1 ECO doesn't have to hide at all, because with its numerous features it has all the functions for modern maintenance of artificial turf pitches. Decompacting and cleaning can be easily combined with the TB1 ECO and the hitch also offers numerous application options with various attachments from SMG.

Of course, we also have our bestseller in an improved version with us: The TurfCare TCA1400 – sold over 3,600 pieces worldwide. With our ground driven, tow-behind device for the cleaning and care of artificial turf, your facility will be in top condition all year round.

Our commitment to innovation and quality is unmatched. We look forward to presenting our two innovations live and over 20 other maintenance machines to you in detail.

We have summarized the most important info about the Saltex here for you:
