

passion for sports grounds

The TurfWinch Series from SMG: Innovation meets efficiency in three different approaches to artificial turf winding.

The TurfWinch Series – these powerful attachments for construction loaders or forklifts are designed to wind cut strips of artificial turf – with or without infill - into rolls with ease and precision.

TurfWinchVario TWV:

- adjustable roll widths ranging from 2,000 to 4,000 millimeters, catering to various project requirements
- its hydraulic arms allow for effortless winding from the inside out, creating very compact rolls of turf

TurfWinch TW2000:

- with a maximum roll width of 2 meters and its robust grid-roller perfect for winding strips of infilled turf
- it features a powerful hydraulic tongs to securely grip and lift the finished roll, streamlining the reclamation process

TurfWinch TW2000 ECO:

- for operations that don't require lifting of the finished rolls
- the TW2000 ECO excels at winding the turf, and its low weight of only 220 kilograms allows it to be used by the smallest vehicles
