

passion for sports grounds

Goed nieuws: Van Leeuwen officially becomes SMG Nederland

Van Leeuwen has been involved in agricultural mechanization for 30 years. In December 2017, the garden and park machinery segment of Van Leeuwen was further expanded. With their knowledge and their affinity for natural and artificial turf machines, the cooperation with SMG was the next logical step. Van Leeuwen is now responsible for the sales and service for all SMG machines for the installation and maintaining of artificial turf.

In the field of economic maintenance of artificial turf surfaces alone, SMG offers an incomparable product variety with more than 20 different cleaning and maintenance machines. Depending on the customer's requirements, there are models from hand-held devices for mini-pitch fields, ride-on machines of different sizes and equipment up to various attachments.

Speak to Van Leeuwen, they know what's possible.

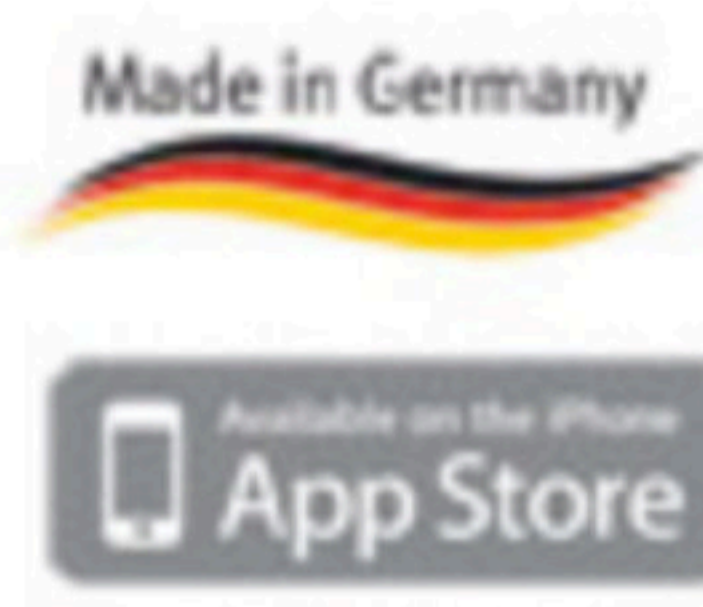

We wish Van Leeuwen and the whole team a lot of fun and success!

Welkom bij de SMG-familie.
