

passion for sports grounds

Dear SMG customers,

The perfect beginning for a successful start into the season powered by SMG

Would you like to ensure the best possible initial care for the artificial turf before the start of the season? Well, then you are exactly right here with us!

It is no coincidence that we have become the leading manufacturer of ride-on machines, tractor attachments and tow-behind devices for the maintenance of artificial turf and sports grounds. With us, all users will find 360 ° support in terms of technology and 100 percent know-how.

For decades, SMG has been setting the standards in the production of machines in the special field of regular and advanced maintenance of sports floors – and is continuously developing them further on. This approach is state of the art:

Regular maintenance

The work steps of regular maintenance are usually carried out by a groundskeeper as part of his weekly tasks with the existing towing vehicle: visual inspection of lines and seams, but above all surface cleaning with return of infill materials and brushing on the artificial turf fibers of the playing field.

WashMatic WM800

Ride-on machine for the cleaning of synthetic sports surfaces by high pressure water.

TurfCare TCA1400

Ground driven, tow-behind device for the cleaning and care of artificial turf.

Advanced Maintenance

The advanced substance care (intensive care) in larger time intervals requires special machines with which the more complex work processes can be carried out: the intensive care for artificial turf includes loosening, deep cleaning and refilling of infill material, with seasonal care also treating against algae and moss.

CareMax CM2B

Ride-on machine for the cleaning and care of artificial turf.

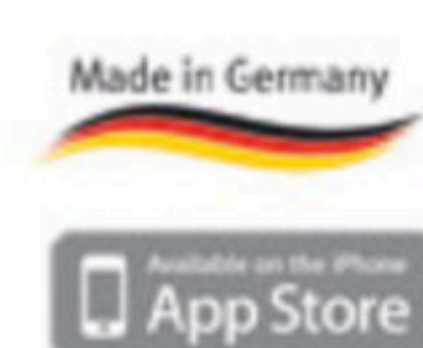

SportChamp SC3

Multifunctional ride-on machine for the advanced maintenance of artificial turf.

Whatever the situation on site - whether playing fields or running tracks: the SMG specialists have the solution. We are at your disposal for advice, demonstrations, test phases, information on subsidies and leasing, financing or hire purchase.

Ask us and we are glad to help!

Your SMG team
