## WM800 – for safe outdoor sports on track and turf

### Dear SMG customers,

It is finally the time for the kids to get out to play sports again. However, the fun is limited on an extremely dirty multi-purpose playing field. These do not lure children and young people away from their smartphones. That is why we decided to do a demo with the SMG WashMatic WM800 and to clean and prepare the very heavily soiled area. Now the children can pursue their sport in a Corona-compliant manner. On a school sports facility that is technically safe again in attractive condition and looks good.

For this difficult task we used, among other things, the new high-pressure washing bar to remove coarse dirt with a water pressure of up to 100 bar.

Thanks to the WashMatic WM800, the multi-purpose playing field again meets the traffic safety requirements of sports facilities and also looks almost like a brand new field. We are happy that children can practice their sport again here, that's what we live and work for at SMG.

WM800 – for safe outdoor sports on track and turf in times of and after Corona. Would you also like to request a demo or are you interested in more information about our WashMatic WM800? Then please contact our SMG specialists, we are absolutely certain to have the perfect solution for your request.
