LineStar LS1 DC

LINESTAR - APPLYING / STRIPING

AirGo lining machine for synthetic sports surfaces and artificial turf.
Airless battery-powered.

The LineStar LS1 DC is a compact case-based striping machine for synthetic sports surfaces and artificial turf, designed for professional use on sports facilities around the world. Its lightweight aluminum construction, powerful Graco ES500 airless pump, and reliable DeWalt battery deliver consistent, high-quality paint application - cordless, efficient, and precise. Thanks to its innovative folding mechanism, the machine can be compactly folded and easily transported in two specially designed roller cases. The total weight remains within standard airline transport limits, making it ideal for air travel and international logistics. Adjustable line widths from 40 to 120 mm, rotating guide discs with spline shaft technology, a height-adjustable spray arm, and an integrated tool compartment ensure precise results and maximum user convenience. The LineStar LS1 DC stands for precision, mobility, and innovation at the highest level - the perfect companion for professional line markers.

Air transport is subject to the applicable regulations of the airline and IATA.

LINESTAR - APPLYING / STRIPING

Item number/s:	*6241359*
Power	18/54 V / 6 Ah
Chassis	Aluminum construction, plastic coated
Working pressure range	70 – 200 bar
Flow Rate	1,0 l/min
Dimensions	L 730 x W 550 x H 1,280 mm
Separable transport cases	Suitcase 1: L 730 x W 550 x H 600 mm Suitcase 2: L 730 x W 550 x H 680 mm
Transport weight	Suitcase 1: 38 kg Suitcase 2: 64 kg

Subject to technical changes
