PlanoMatic P102

PLANOMATIC / INDUSTRIAL FLOOR - PAVING

Semi-automatic paver for bonded screed.
Working width 2,400 mm, area performance max. 230 m²/h.

PlanoMatic P102 is designed to fulfil all the requirements of industrial floor installation. High area coverage and extreme ease of handling greatly reduces manpower and working time requirements.

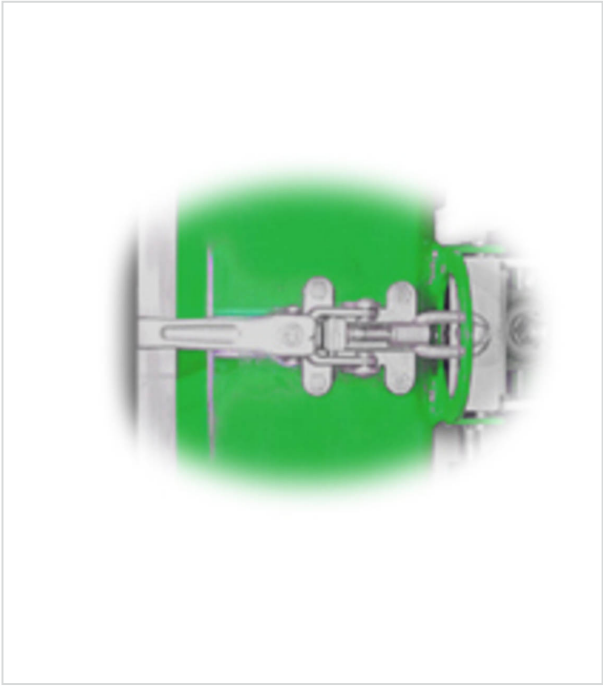

With adjustable speeds from approx. 0.8 m/min to 1.6 m/min PlanoMatic P102 rapidly and evenly compresses every kind of industrial flooring mortar in one pass.

A hand wheel enables the thickness of the covering to be regulated to exactly suit the conditions on the job site. It can also be used with levelling bars. Levelling with laser guidance means that all kinds of top coverings can be laid absolutely even.
