Magnet bar ML1500

MAGNET BAR - MAINTENANCE

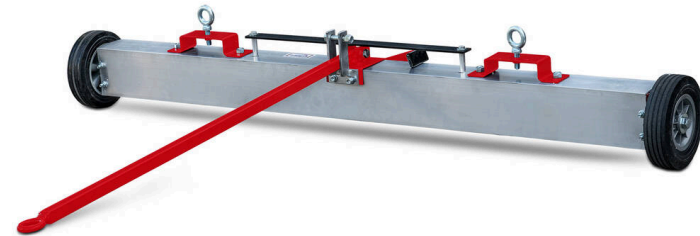

Magnet bar for artificial turf maintenance.

The Magnet Bar ML1500 is the ideal add-on for enhanced safety and cleanliness on artificial turf and coated sports surfaces. Designed to attach seamlessly to the rear hitch of the Sportchamp, this powerful magnetic tool removes hazardous metal debris with minimal effort.

Featuring a 1,500 mm wide magnetic bar mounted between two smooth-rolling wheels, the ML1500 sweeps across your playing surface, collecting hidden nails, screws, shavings, and other magnetic materials that could pose a risk to players or equipment.

Once the area has been cleared, simply remove the tool and disengage the magnetic field to safely release the collected debris.

Suitable for use on both artificial turf and spray- or sandwich-coated courts, the ML1500 ensures comprehensive surface care - without disturbing the turf structure.
