TurfCare - Maintenance
TurfCare TCA2000

TurfCare - Maintenance

TurfCare TCA2000

Item number/s:

6400193

Ground driven, tow-behind device for the cleaning and care of artificial turf.

TurfCare TCA2000 maintains any kind of infilled and unfilled artificial turf systems. The wheel drive makes the equipment independent from any hydraulic or power shaft drives. Therefore the TurfCare can be pulled by various vehicles such as small compact tractors or quads.

The working depth can be precisely set and locked via two adjusting spindles.

The vibrating screen can be precisely adjusted with variable settings from 4 - 10 mm depending on the degree of pollution and the grid size of the infilling material.

For the pass of narrow doorways the two transport rollers can be fold out and the tow bar can be raised up.

For safe and comfortable road transport, the TCA2000 can also be retrofitted with a unique three-point hitch (optional). Toll-free changeable from 3-point to drawbar.

TurfCare - Maintenance

TurfCare TCA2000

Detail views

Optional

Three point hitch and draw bar combination for safe and easy transportation.
