

TurfCare

TCA1400

The all-rounder for maintaining and cleaning of Track & Turf.

The fusion of the 3 Brush-Systems "SMG opposed brush", "SMG rotating brush" and "SMG rotating brush with auger" combines three established brushes for the cleaning and maintenance of artificial turf and athletic tracks.

An adjustable sieve, a wider suction channel and optional side brooms for left and right allows the cleaning of all kind of synthetic turf systems.

The unique design allow the working on sand/rubber filled systems, systems with organic infill, non-filled or wet systems as well as on running and jogging tracks, walkways and parking areas.

For safe and comfortable road transport, the TCA1400 can also be retrofitted with a unique three-point hitch (optional). Toll-free changeable from 3-point to drawbar.

Art.-No. 6400160

Working width	1,400 mm
Weight	185 kg
Dimensions	L 1,800 x W 1,310 x H 500 mm
