## TS2 DC

### Machine for the cleaning and care of artificial turf.

TurfSoft TS2 DC is a solution as simple as effective for the joy in the game and maintaining the value of small areas with non-infilled and infilled surfaces (sand and sand/rubber). Using this machine you can eliminate suspended particles, abrasion and dirt particles from the top surfaces. The manoeuvrable TurfSoft is ideal for areas with little space to move, where stairs, steps and narrow doorways complicate the access to the artificial turf pitches.

TurfSoft is equipped with a electric motor which controls three functions at the same time: the vibrating function of the sieve, the drive of the turbine and the rotation of the cleaning brush. With light pressure on the steering arm the brush steps into the turf and through the emerging feed it causes an easy and energy-saving operation.

You can easily clean the filter by turning the handwheel.

SMG dust filters installed by SMG comply with DIN EN60335-2-69/dust class „M“ and EN779 „F8“ or „F9“. Dust with a high proportion of fines as well as granulate/fibre abrasion (microplastics) are extracted via the powerful turbine and bound in the filter.

Art.-No. 6241922

Drive	Electric motor / 3.47 kW
Working width	800 mm
Weight	110 kg
Dimensions	L 1,130 x W 995 x H 910 mm

Subject to technical alterations

## TS2 DC

**COMPACT**  
Foldable steering arm and 360° swivable wheels to pass doors.

**SAFETY**  
Side wheel to avoid collisions on walls.

**4 - 10 MM**  
SMG adjustable sieve for every particle size.

**EASY HANDLING**  
Ergonomically arranged operating controls.

**COMFORT**  
Cup holder and bracket for tools.

**SMG DUST FILTER**  
Dust filter comply with DIN EN60335-2-69/dust class "M" and EN779 "F8" or "F9".

**POWERFUL**  
Electric motor with 3.47 kW.
