

passion for sports grounds

The TurfPickup from SMG: The compact solution for loosening of artificial turf.

The compact TurfPickup TP600 is the ultimate solution for efficiently loosening hardened artificial turf and effectively working out filling material.

Advantages of the TurfPickup TP600:

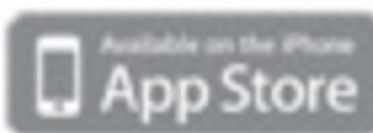

- working depth can be precisely adjusted to suit individual needs using spindles
- working width of 600 mm
- rotating tine shaft gently loosens carefully compacted/hardened filling material (e.g. sand and rubber granulate)
- at the same time, the filling material is worked out of the artificial turf
- versatile and powerful
- perfect for smaller facilities such as tennis courts, padel courts or futsal courts
- certain areas can also be repaired on larger fields
- easy to transport thanks to low weight of just 75 kg
- foldable handle for easy maneuvering even in confined spaces

For more information on the TurfPickup TP600, please contact our specialists directly or click here:
