TurfSoft TS1 DC – The Revolution in Padel Court Maintenance!

We are excited to introduce a groundbreaking innovation for the top-layer cleaning of artificial turf pitches: the **TurfSoft TS1 DC**. Designed for the regular cleaning and care of padel courts, this machine combines advanced technology with maximum efficiency.

Why Choose the TurfSoft TS1 DC?

- **Powerful rotating brush:** Reliably removes suspended particles, abrasion and dirt.
- **Hinged side brooms:** Clean even hard-to-reach areas thoroughly and evenly.
- **Innovative vibrating sieve:** Filters dirt and worn fibers, while the cleaned sand is returned to the playing field. If necessary, the sieve can be closed, allowing the machine to also be used to clean areas outside of the padel court.
- **Highly efficient dust filter:** Meets strict standards (DIN EN60335-2-69 / dust class "M" and EN779 "F8"/"F9") and binds even the finest dust and microplastic particles.
- **Cordless battery operation:** Maximum flexibility and ease of use, even for cleaning surrounding areas.

More information about the TS1 DC can be found here:

SMG and Kärcher – a Strong Partnership for the Future

Thanks to the partnership between SMG and Kärcher, SMG can draw on proven Kärcher sweeper technology and establish it specifically in the niche market of sports field maintenance.

With its attractive price-performance ratio, the TurfSoft TS1 DC has the potential to sustainably optimize the maintenance of padel court surfaces. Under the motto "SMG powered by Kärcher," we look forward to offering you this innovative cleaning solution.
