Important Information: SMG Price Adjustment Effective June 1, 2026

Dear Customers and Prospective Customers,

We would like to inform you that we will be adjusting our prices as of June 1, 2026

The ongoing challenging economic situation – characterized by rising energy and raw material costs, increased transport and logistics expenses, as well as persistent geopolitical uncertainties – is also leading to noticeable additional burdens for our company.

It was therefore especially important to us to make this adjustment as fair and customer-friendly as possible.

For this reason, we have deliberately decided against a general, across-the-board percentage price increase. Instead, the adjustment will be made in a differentiated manner and tailored individually to products and business areas.

This approach ensures that price changes are only implemented where they are unavoidable.

You are welcome to request the currently valid prices at any time from your personal contact in our sales department. Of course, we are also available for individual consultations or to provide a specific quotation. Please note that the validity of our current offers is 30 days.

We sincerely thank you for your understanding and the trust you have placed in us, and we look forward to continuing our successful partnership.

**Kind regards,
from Vöhringen**
